## DETAILED ACTION

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claim 9 is rejected under 35 U.S.C. 102(e) as being anticipated by **Ghazarian [US. 2003/0016143]**.

Regarding claim 9, **Ghazarian** discloses a portable terminal being one of a first portable terminal (on moving vehicle) or a second portable terminal (on patrol vehicle), comprising a position information generation part (GPS), a moving speed measuring part, a transmission part, a receiving part, a signal generating part, and an alarm part; the receiving part receives a position coded signal from an information provision system (a traffic light mounted transceiver) indicating that the vehicle is approaching or is present at the prescribed location (the traffic light location), the alarm part issues an alarm indicating to other vehicles or pedestrians nearby that the vehicle is approaching or is present at the prescribed location, the signal generating part sending to a server (monitoring station) information related to the approaching vehicle including ID, location and speed; the server uses a current position of the traffic light and information on danger near the traffic light (speeding or stop signal violation at traffic

intersection) to notify a second portable terminal (on patrol vehicle) that the first terminal (on moving vehicle) is in a region of danger (at traffic intersection) (fig. 4; [0018], [0020], [0023]).

***Allowable Subject Matter***

3. Claims 1-8 are allowed.

***Conclusion***

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
